EDUCATION

Videogame Design and Development | September 2021 - July 2025
CITM (UPC), *Barcelona*

- Engineering degree, taught in English.
- Focused on team projects of different sizes and working under pressure.
  Average final grade: 8.81

Technological Baccalaureate | September 2019 - June 2021
INS Miquel Martí i Pol, *Cornellà de Llobregat*
Average final grade: 9.00

WORK EXPERIENCE

Extracurricular Teacher | October 2026 - Currently
Algorithmics, *Barcelona*

- Teaching multiple classes of various levels and ages (6 - 16 years).
- Making sure the students understand the topics presented in class.
- Reinforcing creativity and algorithmic thinking.
- Keeping track of each student's struggles and adapting the classes for their needs.

Retail Worker | February 2026 - October 2026
BonÀrea, *Hospitalet de Llobregat*

- Experience working face to the public.
- Working within a small team and with a high volume of work.
- Solving problems quickly and efficiently.

Staff Volunteering | October 2025, October 2026
BCN Game Fest, *Hospitalet de Llobregat, Barcelona*

- Volunteering job assembling stands, helping in inventory and solving attendees' problems.

Reinforcement Classes Teacher | October 2024 - June 2025
CITM (UPC), *Barcelona*

- Weekly reinforcement classes for 1st year university students in Programming, Maths and Physics.
- Synthetized the lessons for the students to understand complicated topics easily, and learn through real-life examples they would find during their degree.

Extracurricular Teacher | December 2023 - June 2024
Play Code Academy, *Barcelona*

- Extracurricular Teacher of Programming and Robotics for medium sized groups of kids from 7 to 11 year old.
- Taught the students through visual examples, and personalized the lesson for the different levels in the same class.

SKILLS

Work Methodologies: Agile, Scrum, Kanban
Programming Languages: C++, C#, C, SQL
Game Engines: Unity, Unreal Engine, worked with custom engines
Graphics APIs: OpenGL, Vulkan
3D Art: Houdini, Blender, Maya, 3D Max, Substance Painter
Extra: Visual Studio, Adobe Package, Office Package, DaVinci Resolve, Audacity

---

PROJECTS

The Fixer, (2025)
Honorable Mention for Best Technology, *CITM Game Jam 2025*

- Project made by 5 people.
- Made in Unity.
- In charge of coding, focusing on creating a robust internal logic for the game that could be expanded if necessary.

Alien: Nemesis, (2024)

- Project made by a group of 20 people.
- Made in a custom engine.
- In charge of the coding and implementation of VFXs, including a particle system tool and documentation for artists to use it.
